Any accessories ?

Some accessories enhanced the experience
of the **LZR®-FLATSCAN 3D SW.**

Need a discreet solution for glass doors?
You might want to choose the glass door accessory.
Make no compromise: choose safety AND design.

The **LZR®-FLATSCAN 3D SW** has an additional output
dedicated to the opening of the door.
Multiple virtual opening buttons can be placed everywhere
in the detection field to intentionally open the door.
We've created a series of stickers to make them visible.
