### Any accessories?

Some accessories enhanced the experience of the LZR®-FLATSCAN 3D SW.

Need a discreet solution for glass doors? You might want to choose the glass door accessory. Make no compromise: choose safety AND design.

The LZR®-FLATSCAN 3D SW has an additional output dedicated to the opening of the door.

Multiple virtual opening buttons can be placed everywhere in the detection field to intentionally open the door.

We've created a series of stickers to make them visible.
